

AS4 Case Study

Melis Ozgur CETINKAYA DEMIR,
TUBITAK, Gebze / Turkey

```
44 //send message to C1, it will submit the message to C2
45 val rivet1 = "submitMessageToC2(java.util.Map)" of "$backend" shall map(payloadMap onto 1)
46
47 //receive the as4 message from c2, feed it to the interceptor and forward the result to c3
48 "c3ReceiveMessage(byte[])" of "$as4Adapter" shall (
49   use("c2SendMessage(byte[])" of "$as4Adapter")(
50     mapping(1 onto 1 using interceptor))
51
```

- ➔ Kerkovi is the e-SENS generic AS4 Conformance & Interoperability bridge that achieves connectivity between the testing system (**Minder Testbed**) and the AS4 compliant gateways

Thank you
